Sara Dhoundiyal

B.Tech IT | Full Stack Developer | Hackathon Builder

saradhoundiyal296@gmail.com | +91 7291019121 | Delhi, India | Portfolio | GitHub

CAREER OBJECTIVE

Third-year B.Tech IT student (CGPA **9.18**, latest SGPA **9.54**) who builds polished, AI-powered web products. Hands-on with React, Node.js and Python, backed by internships, data analytics work and multiple national-level hackathon podiums and finals.

WORK EXPERIENCE

Full Stack Web Development Intern • Odymax Technologies, New Delhi — Jun 2026 – Aug 2026

- Contributed to front-end and back-end development using HTML, CSS, JavaScript, React.js, Node.js and databases.
- Worked closely with the team, communicating technical findings clearly and delivering tasks with attention to detail.

AI Web Development Intern • InAmigos Foundation (Virtual) — Aug 2026

- Selected through a competitive Internshala screening process.

Data Analytics Job Simulation • Forage × TATA (Virtual) — Jul 2026

- Completed the GenAI Powered Data Analytics simulation: exploratory data analysis and risk profiling.
- Built business reports and data storytelling, and shaped an AI-driven collections strategy from the insights.

PROJECTS

RouteIQ • AI transit companion for Delhi commuters — Jul 2026 – Present

Led product and UX design: live bus tracking, dynamic replanning and cost comparison vs. Uber/Ola/Rapido. Built the React frontend with Leaflet maps, a ‘Meet Friends & Midpoint’ planner and miss-the-bus analysis using real GTFS transit data.

Mentra.AI • AI career-intelligence platform — Mar 2026 – Jun 2026

Built the React frontend for an AI career-intelligence platform: skill-gap analyzer, personalized roadmap generator and mock interview UI. Added animated flows (Framer Motion) and connected components to REST APIs for resume scoring and application tracking.

ET Pulse • Personalized financial news platform — Jan 2026 – Mar 2026

Built the React/Vite frontend with sector heatmaps, AI briefings and an ‘Explore with AI’ chat assistant, plus multi-language UI (Hindi, Tamil, Telugu, Bengali, Marathi).

ArthSahay • Neural.Net Hackathon — Aug 2025 – Nov 2025

Built the conversational UI for an AI-powered financial assistant that simplifies loan guidance and decision-making.

MindOasis • Mental wellness web app — Mar 2025 – Present

Mood tracking, journaling and AI-assisted support, designed around an accessible, calming UI.

EDUCATION

B.Tech, Information Technology • Guru Gobind Singh Indraprastha University — 2024 – 2028

CGPA: **9.18 / 10**

SKILLS

Languages	Python, JavaScript, TypeScript, Java, SQL
Frontend	HTML5, CSS3, React, Vite, Tailwind CSS, Responsive Design
Backend & DB	Node.js, REST API, JWT, MongoDB, MySQL
Tools	Git, GitHub, VS Code

TRAININGS / CERTIFICATIONS

- Python — Beginner to Advanced
- Full Stack Web Development — Udemy (Aug 2026 – Present)
- React — Udemy (Aug 2026 – Present)
- Bootstrap — Udemy
- Intro to SQL — Kaggle Learn (May – Jun 2026)
- Intro to Programming — Kaggle Learn (Jan 2025)

ACHIEVEMENTS

- **3rd Place** — Neural.Net Hackathon, IIT Bangalore (Synergy’25)
- **3rd Place** — ARTPARK ProtoDash Challenge, Indian Institute of Science (IISc), Bangalore
- **Finalist** — PixelVerse National UI/UX Hackathon, IIT Bangalore
- **Finalist** — Innerve Hacks, IGDTUW
- Selected through 2 evaluation rounds — EY Techathon 6.0, Ernst & Young
- Qualified for Round 2 — NEXTGEN AI Hackathon, AI Academia; Delhi Zonal Qualifier — HackArena 2.0
- Participant — Meta PyTorch OpenEnv Hackathon, India Innovates 2026, ORBIX 18-Hour Hackathon, Synapse.AI (DTU), Prompt & Profit AI Hackathon, VoyageHack 3.0, Faraway Hackathon
