## CAREER OBJECTIVE

Third-year B.Tech IT student (CGPA 9.18, latest SGPA 9.54) with hands-on experience in AI/ML, data analytics, and full-stack development. Skilled in, Node.js, Frontend & AI tools, Python, Pandas, React with practical experience through projects and hackathons. Learning many new technologies.

## WORK EXPERIENCE

**Full Stack Web Development • Internship** Jun 2026 - Aug 2026

*Odymax Technologies, New Delhi*

- Contributed to front-end and back-end development using HTML, CSS, JavaScript, React.js, Node.js, and database technologies.
- Demonstrated strong work ethic, attention to detail, and a high level of professional integrity throughout the internship.
- Applied analytical thinking to communicate complex findings effectively to the team.

**AI Web Development • Internship** Aug 2026

*InAmigos Foundation, Virtual (via Internshala)*

- Selected for the AI Web Development internship at InAmigos Foundation through a competitive Internshala screening process.

**Data Analytics • Internship** Jul 2026

*Forage-TATA, Virtual*

- Completed the GenAI Powered Data Analytics Job Simulation through Forage, working on practical data analytics and AI tasks.
- Performed exploratory data analysis and risk profiling and worked on AI-based delinquency prediction.
- Developed business reports and data storytelling to support collections strategy.
- Implemented an AI-driven collections strategy based on analytical insights.

## EDUCATION

**B.Tech, Information Technology** 2024 - 2028

*Guru Gobind Singh Indraprastha University*

CGPA: 9.18/10

## TRAININGS / CERTIFICATIONS

- PHP — udemy, Virtual (Aug 2026 - Present)
- Full Stack Web Development — udemy, Virtual (Aug 2026 - Present)
- React — udemy, Virtual (Aug 2026 - Present)
- Cybersecurity For Beginners — udemy, Virtual (Jul 2026 - Present)
- Intro To SQL — Kaggle Learn, Virtual (May 2026 - Jun 2026)
- ML Explainability — Kaggle Learn, Virtual (Dec 2025 - Present)
- Intro To Machine Learning — Kaggle Learn, Virtual (Oct 2025 - Nov 2025)
- Python — Kaggle Learn, Virtual (Jul 2025 - Aug 2025)
- Pandas — Kaggle Learn, Virtual (Jan 2025 - Feb 2025)
- Intro To Programming — Kaggle Learn, Virtual (Jan 2025)

## PORTFOLIO

## PROJECTS

**Mentra.AI** Mar 2026 - Jun 2026

Built the React frontend for an AI career-intelligence platform — skill-gap analyzer, personalized roadmap generator, and AI mock interview UI. Implemented animated UI flows (Framer Motion) and connected React components to REST APIs for resume scoring and application tracking.

**Deployment:** https://aimentra-three.vercel.app/

**ET Pulse** Jan 2026 - Mar 2026

Built the React/Vite frontend for a personalized financial news platform — sector heatmaps, AI briefings, and an 'Explore with AI' chat assistant. Implemented multi-language UI support (Hindi, Tamil, Telugu, Bengali, Marathi).

**Neural.Net** Nov 2025

**ArthSahay** Aug 2025

Built the conversational UI for an AI-powered financial assistant simplifying loan guidance and decision-making.

**RouteIQ** Jul 2026 - Present

Led product and UX design for an AI transit companion for Delhi commuters — live bus tracking, dynamic replanning, and cost comparison vs. Uber/Ola/Rapido. Built the React frontend with Leaflet-based live maps, plus a 'Meet Friends & Midpoint' planner and miss-the-bus analysis, using real GTFS transit data.

**MindOasis** Mar 2025 - Present

Built a mental wellness web app with mood tracking, journaling, and AI-assisted support, focused on an accessible, calming UI.

## SKILLS

HTML5, CSS3, JavaScript, React, Vite, Tailwind CSS, Responsive Design, Node.js, REST API, JWT, MongoDB, MySQL, C#, C Programming, Java, Python, TypeScript, SQL, NumPy, Pandas, scikit-learn, TensorFlow, Natural Language Processing (NLP), Git, GitHub, VS Code, Streamlit, PHP

## EXTRA CURRICULAR ACTIVITIES

- Member, AI & ML Geek Room Society — active participant in AI/ML workshops and community projects.

## ADDITIONAL DETAILS

- 3rd Place — Neural.Net Hackathon, IIT Bangalore (Synergy'25)
- 3rd Place — ARTPARK ProtoDash Challenge, Indian Institute of Science (IISc), Bangalore
- Finalist — PixelVerse National UI/UX Hackathon, IIT Bangalore
- Finalist — Innerve Hacks, Indira Gandhi Delhi Technical University for Women (IGDTUW)
- Selected through 2 evaluation rounds — EY Techathon 6.0, Ernst & Young
- Qualified for Round 2 — NEXTGEN AI Hackathon, AI Academia
- Delhi Zonal Qualifier — HackArena 2.0
- Hackathon participant — Meta PyTorch OpenEnv Hackathon, India Innovates 2026, ORBIX 18-Hour Hackathon, Synapse.AI Hackathon (DTU), Prompt & Profit AI Hackathon, VoyageHack 3.0, Faraway Hackathon
